

Overview chapters – order, title, authors Version 24 January 2013

Section 1 History

Section editor: Joost Bierens (jbierens@euronet.nl)

- 1.1 Brief History of Maatschappij tot Redding van Drenkelingen (The Society to Rescue People from Drowning)
Balt Heldring
- 1.2 The History of Lifesaving
Harald Vervaecke
- 1.3 Two Centuries of Searching for Safe Lifeboats in the Netherlands
Ton Haasnoot
- 1.4 The History of Resuscitation
Bart Jan Meursing
- 1.5 Bibliometric analysis of drowning research
Beatrix Kloft and David Groneberg
- 1.6 The World Congress on Drowning 2002 - A Move Towards the Future
Joost Bierens and Hans Knape
- 1.7 World Conference on Drowning Prevention 2011- Impacts and Legacies
Justin Scarr, Steve Beerman, Monique Sharp and Amy Peden

Section 2 The Epidemiology of Drowning

Section editors: Christine Branche (crb3@cdc.gov) and Ed van Beek (e.vanbeek@erasmusmc.nl)

- 2.1 Summary and recommendations
Christine Branche and Ed van Beek
- 2.2 Definition of Drowning - A Progress Report
Ed van Beek and Christine Branche
- 2.3 The Global Burden of Drowning
 - 2.3.1 The Global Burden of Drowning
Molly Martyn
 - 2.3.2 Data to Assess the Global Burden of Drowning
Molly Martyn
 - 2.3.3 Issues in Selected Countries
 - 2.3.3.1 The United States
Grant Baldwin, Julie Gilchrist, Rita Noonan
 - 2.3.3.2 Europe
Eleni Petridou and Antonia Moutafi
 - 2.3.3.3 Australia and New Zealand
Joan Ozanne-Smith
 - 2.3.3.4 Selected African Countries
Olive Kobusingye and Brett Bowman
 - 2.3.3.5 South America - A Case-review of Brazil
David Szpilman
 - 2.3.5 The South and Southeast Asian Perspective
Alain Labrique and Adnan Hyder
- 2.4 Risk Factors for Drowning
Linda Quan and Molly Martyn
 - 2.4.1 Review of Risk Factors
Linda Quan
 - 2.4.2 Culture and Ethnicity
Linda Quan
 - 2.4.3 Suicidal Drowning
Phillipe Lunetta and John Connolly
- 2.5 The Effectiveness of Drowning Prevention Strategies
Ruth Brenner and Gitanjali Taneja
- 2.6 Occupational Drownings
Jennifer Lincoln
- 2.7 Future research questions
Christine Branche and Ed van Beek

Section 3 The Prevention of Drowning

Section editors: *Elizabeth Bennett (elizabeth.bennett@seattlechildrens.org) and Michael Linnan(mlinnan@tasc-gcipf.org)*

- 3.1 Summary and recommendations
Elizabeth Bennett and Michael Linnan
- 3.2 A Framework for Prevention
Richard Franklin and Justin Scarr
- 3.3 Drowning prevention in low and middle income countries versus high income countries
Michael Linnan, Justin Scarr and Huan Wan Linnan
- 3.4 Supervision
Lauren Petrass
- 3.5 Physical Barriers
Elizabeth Bennett and Michael Linnan
- 3.6 Public and Private Pools
Ian Scott and Marcel Jagersma
- 3.7 Swimming and Water Survival Competence
Robert Stallman, Kevin Moran, Ruth Brenner and Aminur Rahman
- 3.8 Acquisition of knowledge, attitudes and behaviours that contribute to water competence - high income countries.
Jennifer Blitvich
- 3.9 Water Safety Skills and Knowledge in the Low-Resource Environment
Tom Mecrow and Adisak Suvanprakorn
- 3.10 Personal Flotation Devices
Linda Quan
- 3.11 Recreation and Tourism
Arne Navarra and John Connolly
- 3.12 Partnerships and Collaboration in Drowning Prevention
Justin Scarr
- 3.13 Community Level Interventions
Elizabeth Bennett, Michael Linnan and Celeste Chung
- 3.14 The Role of Policy in Prevention
Joanne Vincenten and Suchada Gerdmongkolgan
- 3.15 Future research questions
Michael Linnan and Elizabeth Bennett

Section 4 Rescue – Organisational aspects: Planning, Training and Preparation

Section editors: *Rob Brons (r.k.brons@hetnet.nl) and Peter George (pgeorge@slsa.asn.au)*

- 4.1 Summary and Recommendations
Peter George and Rob Brons
- 4.2 Patterns of Tides, Currents, Waves and Surf
Rob Brander and Ton Haasnoot
- 4.3 Beach hazard and risk assessment
Andrew Short and Rob Brander
- 4.4 Public Education by Lifesavers
Antony Bradsheet
- 4.5 Emerging Technologies in Lifesaving
Ralph Goto
- 4.6 Water Safety Signs and Flags
Steve Wills and Peter George
- 4.7 Recognition of the person in distress
Luis-Miquel Pascual-Gomez
- 4.8 Vigilance
Jenny Page
- 4.9 Scanning and surveillance - swimming pools, beaches, open sea
Jenny Page and Tom Griffiths
- 4.10 Evidence Based Standards in Lifesaving - The Conclusions of the United States Lifeguard Standards Coalition
Peter Wernicki and Mike Espino
- 4.11 Lifeguard Effectiveness
Ralph Goto
- 4.12 Risk Management in the Aquatic context
Adam Weir and Rob Brons

- 4.13.1 Risk Management for lifeguards
Peter Dawes
- 4.13.2 Risk Management in training of rescue techniques
Richard Ming Kirk Tan
- 4.14 Risk management for lifeboat crews
Neil Chaplin
- 4.15 Lifesaving Organisations - Paid or Volunteers?
Chris Brewster and Peter George
- 4.16 Fund-Raising for Lifesaving
Klaus Wilkens
- 4.17 Training Standards
Richard Kirk Ming Tan
- 4.18 European Qualifications Framework for the lifeguard profession
Klaus Wilkens and Rob Brons
- 4.19 Higher Academic Education in Lifesaving – European Qualification Framework levels above 4
Ana Catarina Queiroga, Arturo Abraldes and Stathis Avramidis
- 4.20 Future research questions
Peter George and Rob Brons

Section 5 Rescue – Rescue Techniques

Section editors: Rob Brons (r.k.brons@hetnet.nl) and Peter George (pgeorge@slsa.asn.au)

- 5.1 Summary and recommendations
Peter George and Rob Brons
- 5.2 Towards a definition of aquatic rescue
Kevin Moran
- 5.3 Cultural aspects of rescue and resuscitation of drowning victims
Ramsey Tate and Linda Quan
- 5.4 Survival Swimming
Norman Farmer
- 5.5 Self-Rescue during accidental cold water immersion
Michel DuCharme
- 5.6 Public Rescue Equipment
Cliff Nelson and Steve Wills
- 5.7 Bystander Rescue
Richard Franklin and John Pearn
- 5.8 Direct Body Contact Swimming Rescues
Robert Stallman, Arturo Albraldes and Susana Soares
- 5.9 Rescue Techniques in Pools and Beaches with Equipment
Adam Wooler, Matthew Thompson and Cliff Nelson
- 5.10 Horizontal and Other Rescue Techniques
Wolfgang Baumeier and Michael Schwindt
- 5.11 Open Water Search and Rescue Techniques
Peter Dawes, Michael Woodroffe and Gabe Kinney
- 5.12 Rescue craft
Ton Haasnoot, Peter Dawes, Thore Hagman, Jim Howe, Ruy Marra and Peter George
- 5.13 Helicopter Search and Rescue for Drowning Victims
Man Ho
- 5.14 Swiftwater Rescue
Dan Graham and Thillo Kunneth
- 5.15 Training and Equipping Rescue Personnel for Flood Rescue
Slim Ray
- 5.16 Surface Ice Rescue
Andrea Zaferes and Walt Hendrick
- 5.17 Rescue Techniques in Submerged Vehicles
Jaap Molenaar, Gordon Giesbrecht and Gerren McDonald
- 5.18 Offshore Powerboat Rescue
Joost van Nueten
- 5.19 Spinal Injuries – causes and prevention
Jennifer Blitvich

- 5.20 Lifesaver Injuries and Prevention
Peter Wernicki and Christy Northfield
- 5.21 Cause and prevention of work related injuries on rescue craft
Peter Dawes
- 5.22 Rescue operations and stress
Peter van der Velden and Peter van Loon
- 5.23 Future research questions
Peter George and Rob Brons

Section 6 Pre Hospital Treatment

Section editor: Volker Wenzel (volker.wenzel@uki.at or volker.wenzel@i-med.ac.at) and Joost Bierens (jbierens@euronet.nl)

- 6.1 Summary and recommendations
Joost Bierens and Volker Wenzel
- 6.2 Pathophysiology of drowning
Joost Bierens, Philippe Lunetta, Mike Tipton
- 6.3 Aspiration
Jerome Modell
- 6.4 Long QT Syndrome and Drowning
Alfred Bove and Rienk Rienks
- 6.5 Shallow water black out
Phil Dickinson
- 6.6 Immersion pulmonary edema
Mattijn Buwalda
- 6.7 The Critical Role of Lay Persons and Their Actions in Drowning Incidents
Jane Wigginton, Paul Pepe, Denise Mann, David Persse and Paul Sirbaugh
- 6.8 Basic life support following drowning
Anthony Handley and Ahamed Idris
- 6.9 Drowning – A Dispatch Perspective
Jeff Clawson
- 6.10 Automated External Defibrillators in the Aquatic Environment
Bo Løfgren and Steve Beerman
- 6.11 Oxygen monitoring and use in the drowning victim
Patrick Kochanek and Hülya Bayir
- 6.12 Airway management skills and equipment for aquatic first responders
Natalie Hood and Jonathon Webber
- 6.13 Immobilization and Extraction of Spinal Injuries
Peter Wernicki and David Szpilman
- 6.14 Positioning the Drowning Victim
David Szpilman and Anthony Handley
- 6.15 Advanced Life Support
Volker Wenzel
- 6.16 Paediatric Considerations in Drowning
Robyn Meyer, Andreas Theodorou and Robert Berg
- 6.17 Resuscitation in Low and Middle Income Countries
Tom Mecrow and Nahida Nusrat
- 6.18 First aid courses for the aquatic environment
David Szpilman, Luiz Morizot-Leite, Wiebe de Vries, Steve Beerman, Fernando Martinho, Luiz Smoris, Bo Løfgren and Jonathon Webber
- 6.19 Extremes in medical facilities at beaches
Ana Catarina Queiroga and Jonathon Webber
- 6.20 Future research questions
Joost Bierens and Volker Wenzel

Section 7 Hospital Treatment

Section editors: Jean-Louis Vincent (jlvincen@ulb.ac.be) and Johan Groeneveld (johan.groeneveld@vumc.nl)

- 7.1 Summary and recommendations
Jean-Louis Vincent and Johan Groeneveld
- 7.2 Classifications of drowning
David Szpilman, Antony Simcock and Shirley Graves

- 7.3 Treatment Protocols - Emergency Department and Intensive Care Unit
Volker Wenzel, Walter Hasibeder and Antony Simcock
- 7.4 Ventilatory management of Acute Lung Injury and Adult Respiratory Distress Syndrome after drowning
Davide Chiumello, Eleonora Carlesso and Luciano Gattinoni
- 7.5 Surfactant Therapy
Jack Haitisma, Jozef Kesecioglu and Burhard Lachmann
- 7.6 Extra Corporeal Membrane Oxygenation support in drowning victims
Robert van Thiel and Robert Jan Houmes
- 7.7 Risk Factors and Treatment of Pneumonia
Giel van Berkel and Tjip van der Werf
- 7.8 Cardiovascular Changes
Jerome Modell, Tommaso Pellis, Max Harry Weil, and Philippe Lunetta
- 7.9 Hospital Management Electrolyte disorders, Acute Kidney Injury and Rhabdomyolysis
Patrick Honoré and Herbert Spapen
- 7.10 Drowning in children
Hans van Vught, Nigel Turner, Nicolaas Jansen, Sjef van Gestel
- 7.11 Lessons learned from case reports
Herve Vanden Eede and Johan Groeneveld
- 7.12 Recommended Guidelines for Uniform Reporting of Data from Drowning: The Utstein Style
Ahamed Idris, Joost Bierens, Jane Wigginton, Paul Pepe, Andrea Gabrielli, Anthony Handley, and Jerome Modell
- 7.13 Future research questions
Johann Groeneveld and Jean-Louis Vincent

Section 8 Brain Resuscitation in the Drowning Victim

Section editors: David Warner (WARNE002@mc.duke.edu) and Johannes Knape (j.t.a.knape@umcutrecht.nl)

Authors: Alexis Topjian, Robert Berg, Robert Clark, Hans Friberg, Cornelia Hoedemaekers, Michael Holzer, Laurence Katz, Johannes Knape, Patrick Kochanek, Vinay Nadkarni, Johannes Van der Hoeven, David Warner

- 8.1 Summary and consensus recommendations
David Warner and Hans Knape
- 8.2 Introduction
David Warner and Hans Knape
- 8.3 Prehospital Management
Laurence Katz
- 8.4 Brain-oriented intensive care Management
Astrid Hoedemaekers
- 8.5 Temperature management
Michael Holzer
- 8.6 Pediatric considerations in Drowning
Robert Berg and Vinay Nadkarni
- 8.7 Neuromonitoring
Alexis Topjian
- 8.8 Biomarkers
Hans Friberg
- 8.9 Post-hypoxic Pharmacology
David Warner
- 8.10 Animal Experimentation
Robert Clark and Patrick Kochanek
- 8.11 Future research questions
Patrick Kochanek and David Warner

Section 9 Immersion Hypothermia

Section editors: Beat Walpoth (Beat.Walpoth@hcuge.ch) and Hein Daanen (hein.daanen@tno.nl)

- 9.1 Summary and recommendations
Hein Daanen and Beat Walpoth
- 9.2 The Physiology of Cooling in Cold Water
Mike Tipton and Frank Golden
- 9.3 Body Cooling, modelling and risk assessment
Peter Tikuisis and Hein Daanen
- 9.4 Rescue Collapse Following Cold Water Immersion
Michael Tipton and Michel Ducharme

- Mike Tipton and Michel DuCharme
- 9.5 The role of sea-sickness and immersion hypothermia
Gerard Nobel, Ola Eiken, Igor Mekjavic
- 9.6 Lifejackets and Other Lifesaving Appliances
Chris Brooks
- 9.7 Personal lifesaving equipment other than lifejackets
Hilde Færevik
- 9.8 Pre-Hospital Management of Immersion Hypothermia
Michel Ducharme, Alan Steinman and Gordon Giesbrecht
- 9.9 Hospital rewarming of hypothermic victims
Peter van der Voort and Durk Zandstra
- 9.10 Hospital Treatment of Victims in Cardiorespiratory Arrest
Beat Walpoth, Ebrahim Khabiri and Adam Fisher
- 9.11 Fluid management during the treatment of immersion hypothermia
Marit Farstad and Paul Husby
- 9.12 Adrenergic drug responses during immersion hypothermia
Torkjel Tveita
- 9.13 Acid-base management during accidental hypothermia
Miriam Moviat and Durk Zandstra
- 9.14 International Data-Registrations for Accidental and Immersion Hypothermia
- 9.14.1 The International Hypothermia Registry
Marie Meyer and Beat Walpoth
- 9.14.2 The UK National Immersion Incident Survey – revisited
Mike Tipton, Elizabeth McCormack and Chris Turner
- 9.14.3 An international data-registration for accidental and immersion hypothermia - The SARRAH-Project
Wolfgang Baumeier
- 9.15 Future research questions
Hein Daanen and Beat Walpoth

Section 10 Water-Related Disasters

Section editors: [Bas Kolen \(bas.kolen@hkv.nl\)](mailto:bas.kolen@hkv.nl), [Bas Jonkman \(b.jonkman@royalhaskoning.com\)](mailto:b.jonkman@royalhaskoning.com)

- 10.1 Summary and recommendations
Bas Kolen and Sebastiaan Jonkman
- 10.2 Disasters at Sea
Helge Brändström and Gordon Giesbrecht
- 10.3 Boat Refugees
Cagri Hurmuzlu, Ann Maymann and Federico Fossi
- 10.4 Loss of life due to floods: General Overview
Sebastiaan Jonkman
- 10.5 Dealing with citizen response and evacuation during large scale flooding in industrial societies
Ira Helsloot, Greg Bankoff and Jelle Groenendaal
- 10.6 Water rescue, treatment and life saving
Peter Glerum and Daniel Graham
- 10.7 The future role of national lifesaving organizations in disaster risk reduction
Georgios Karagiannis and Joost Bierens
- 10.8 The Role of Lifesavers in Flood Disasters - an Example from Germany -
Klaus Wilkens
- 10.9 Tsunami and the Role of Japan Lifesaving Association
Toshinori Ishikawa and Tsutomu Komine
- 10.10 Flood preparedness training and exercises
Ralf Beerens, Philip Abraham, Peter Glerum and Bas Kolen
- 10.11 Evacuation of Hospitals and Other Health Care Organizations
Erin Downey
- 10.12 Lessons from the Evacuation of a New Orleans Hospital During Katrina
Richard Deichmann
- 10.13 Towards resilient organization of recovery and care after disaster
Michel Dückers, Magda Rooze and David Alexander
- 10.14 Experience based expertise with flood risk management and flood preparedness in The Netherlands
Matthijs Kok, Corsmas Goemans
- 10.15 UK Summer Floods 2007

- Paul Hayden
- 10.16 Experience based expertise with flooding in China
Sun Dongya and Xioe Jiabi
- 10.17 The 2004 Indian Ocean Tsunami Flooding
Marcel Marchand and Deepak Vatvani
- 10.18 The Australian experience and the Queensland floods of 2010-2011
Lucinda Coates, Katharine Haynes, Andrew Gissing and De Radford
- 10.19 Future research question
Bas Koolen and Sebastiaan Jonkman

Section 11 Breath-Hold, SCUBA and Hose Diving

Section editors: *Alessandro Marroni (amarroni@daneurope.org) and Menno Gaastra (M.Gaastra@fco.nl)*

- 11.1 Summary and recommendations
Alessandro Marroni and Menno Gaastra
- 11.2 Physiology
Alessandro Marroni, Menno Gaastra, David Elliott and Rob van Hulst
- 11.3 The Underlying Physics and Applied Physiology
David Elliott, Rob van Hulst, Maida Taylor, Alessandro Marroni and Menno Gaastra
- 11.4 Diving Techniques
David Elliott, Rob van Hulst, Alessandro Marroni and Menno Gaastra
- 11.5 Epidemiology of Drowning While Diving
Maida Taylor
- 11.6 Physical, Mental and Medical Fitness
Jürg Wendling
- 11.7 Causation of Drowning Accidents in Relation to Training
Glen Egstrom
- 11.8 Underwater Self-Rescue and Assisted Rescue: Training to Cope With Emergencies
Glen Egstrom
- 11.9 Immediate Treatment of the Diver Who Drowned
Richard Moon
- 11.10 First Aid Guidelines
Alessandro Marroni and Menno Gaastra
- 11.11 Diving Accident Investigations
Des Gorman
- 11.12 The Investigation of SCUBA Diving Fatalities
Jim Caruso
- 11.13 Future research questions
Alessandro Marroni and Menno Gaastra

Section 12 Investigation of Drowning Accidents

Section editors: *Jerome Modell (jmodell@anest.ufl.edu) and Philippe Lunetta (philippe.lunetta@helsinki.fi)*

- 12.1 Summary and recommendations
Philippe Lunetta and Jerome Modell
- 12.2 Investigating drowning accidents: general principles
Peter Cornall, Duncan Vernon and David Walker
- 12.3 Behavior of dead bodies in water
Philippe Lunetta, Curtis Ebbesmeyer and Jaap Molenaar
- 12.4 Search and recovery
- 12.4.1 Search and recovery in near-shore waters
James Howe
- 12.4.2 Search Techniques for Dead Bodies: Searching with Dogs
Adee Schoon
- 12.4.3 Searching for Drowning Victims with Sonar
Philippe Blondel
- 12.4.4 Infrared Detection Systems
Germ Martini
- 12.4.5 Computer Systems
Curtis Ebbesmeyer
- 12.5 Underwater search and evidence response teams
Kevin Horn

- 12.6 Establishing the cause and manner of death for bodies found in water
Philippe Lunetta, Andrea Zaferes and Jerome Modell
- 12.7 Multidisciplinary safety investigations of drowning accidents
Philippe Lunetta and Kai Valonen
- 12.8 Legal Aspects and Litigation in Aquatic Lifesaving
Jerome Modell
- 12.9 Legal Claims in Drowning Cases
Rutger Schimmelpenninck and Chris Brewster
- 12.10 Legal and ethical aspects concerning human remains in water and burial at sea
Kari Takamaa and Philippe Lunetta
- 12.11 Marine accident investigations - towards safety investigations
John Stoop and Martti Heikkilä
- 12.12 Future research questions
Philippe Lunetta and Jerome Modell
